25X1C i. Various DDP Activities. The DD/P said we have made good progress
in [REDACTED]
25X1A8a [REDACTED] DDP tried to take over the [REDACTED]
Division but failed.

25X1A9a j. Language Training. The DD/P put considerable emphasis on language
training and said we have fallen way behind State. [REDACTED] feels our
language training is too wholesale -- not targeted enough and there is not
sufficient motivation. He pointed out NE Division now has 18 Americans
trained in Arabic. These were carefully chosen -- they had already been
assigned to Arab countries, had been out a couple of years, they had lang-
uage aptitude, operational ability, and the desire to become area experts.
Admiral Taylor feels there should be some kind of incentive, not necessarily
monetary. We should identify language gaps and then try to gear incentives
toward those gaps. (Almiral Taylor mentioned to DTR that he is interested
in the year-end report on the language policy. We should send a precis of
the most important points to him through Bannerman.)

25X1A k. Employee Conduct and Conflict of Interest. All employees should
read [REDACTED] during January.

25X1A l. [REDACTED] in the Field. FitzGerald referred [REDACTED] that
was taken in the field but should have been first submitted to the [REDACTED] 25X1A8a
25X1A8a [REDACTED] This point should be emphasized in the COS Seminar.

25X1A9a m. Physical Security Overseas. [REDACTED] submitted a 50-page re-
port in which he says the so-called safe room is not the answer. FitzGerald
insists that a radio be played as loud as can be stood in each office in every
station in the world all the time the office is occupied. The DD/P feels very
strongly against [REDACTED]

25X1C 2. DDS Meetings -- DTR Attended

a. Travel Reimbursement. There are a number of administrative changes
in travel reimbursement, i.e., taxi fares, etc.

b. DD/S Briefing of DCI and DDCI. Bannerman said the DCI was greatly
interested in CT recruitment and training, in language training, and approved
the whole language program. He is particularly interested in the results of
our language testing and the 65 per cent declination of testing. In our report
we should include a paragraph on supergrade testing -- and how many de-
clined, what their proficiencies are.)

c. Personnel Ceilings. Our personnel ceilings are now final -- no changes are to be expected. (At the OTR meeting the DTR asked C/PB to prepare a written draft by 25 January on how we will get down to [REDACTED] people, position by position. We have 25 slots to lose and we are expected to lose them within the six-month period.)

25X9A2

25X1A9a

25X1A6a

3. CTs in the Far East. [REDACTED] recently returned from [REDACTED] South Vietnam and [REDACTED] said the COSs were extremely pleased with the performance of the CTs there.

25X1A6a

25X1A9a

4. NATO War College. OTR had been looking into the possibility of getting a slot at the NATO War College. [REDACTED] feels this might be potentially dangerous. DTR is willing to drop the investigating. This will be discussed at the next TSB Meeting.

5. Thesis Selection of Students at Senior Schools. Colonel White asked that we include in our briefing agenda for senior school students a discussion on thesis selection. We should know as soon as possible their thesis selection and should warn them not to address detailed questionnaires to senior government officers. This arose from a questionnaire being sent to John McCone asking for his views on the [REDACTED] Mr. McCone did not know the student, under [REDACTED] was ours and sent the questionnaire to Mr. Helms.

25X1A8a

25X1C4a

6. Prompt Replies to Correspondence. When replying to correspondence we should be prompt but if it is unnecessarily held up in Headquarters offices we should note on the cover sheet when we receive it.

25X1A9a

7. Evaluation of DDP Speakers. School Chiefs should remember that [REDACTED] is the liaison officer on this subject.

8. Brookings Conference of Business Executives. Intel School handling arrangements. Colonel White wants this 20 January conference to go without a hitch. Admiral Taylor will be the host and Colonel White will make the 30-minute presentation.

25X1A9a
25X1A9a

9. Survey at [REDACTED] Responding to [REDACTED] memo regarding saturation point for [REDACTED] the DD/S is sending [REDACTED] down on the 18th and 19th. He will be accompanied by [REDACTED]

25X1A9a

10. SB Ops Course. This course began on 3 January with 38 CTs. The opening talk by [REDACTED] was inspirational and reflected his detailed knowledge of course objectives and schedule. DTR will send an evaluation of this and the [REDACTED] to FitzGerald.

25X1A

25X1A9a

11. Statistics. (ACTION: PPS) [REDACTED] asked if a brief reporting form could be devised for the different kinds of statistics schools are called
